Appointment Length:	135 Minutes
System test:	Test your system
Exam check-in:	Check in to start exam Use this link to check-in 30 minutes prior to the appointment time or, sign in through your account on the Pearson VUE website.

Admission Policy

~ Before Test Day ~

Thank you for considering OnVUE! Now read on to learn about the requirements and rules. It's important because if you fail to comply on exam day, your exam could be revoked without warning, and you could forfeit your exam fee.

Before taking your exam, you must complete a system test using the same equipment and network you will test on.

If you don't think OnVUE is the right choice for you, please consider booking at one of our test centers instead.

Technical Requirements

To test with OnVUE, you must provide a suitable device and network to test with, including:

- A computer running Windows 10, MacOS 13, or higher. Virtual machines and beta versions are not allowed.
- A webcam, microphone, and speaker. Do not use phones, tablets, or wearable devices such as headphones, earbuds, and watches. *
- One display screen only. Secondary displays must be disconnected, and touch screens are not permitted.
- A consistent 6 Mbps down/up internet speed. Do not use corporate networks to test; VPNs are prohibited.
- An ability to close all other running applications except for OnVUE.

Restart your computer just before you begin check-in. This helps to ensure there are enough resources to stream and record video throughout your test.

Admission Rules

To be admitted into an OnVUE exam, you must prepare a testing environment that meets strict test conditions:

- You will need to ensure that you can remain alone, quiet, comfortable, and free from distraction. Do not test in public spaces such as offices, libraries, and schools.
- Ensure there are no uncovered windows, doorways or partitions that might allow someone else to see your exam, even from a distance.
- Your testing environment must be tidy and free from electronics, clutter, paper materials, and writing utensils, unless explicitly allowed for testing. *
- You can bring a drink, gum, and other Approved Comfort Aids. All other food and smoking products are not permitted.
- You must remain fully clothed throughout your exam, but you cannot wear a coat, wristwatch, sunglasses, headphones or headsets. *

When you check in for your exam, you will also need to confirm your identity:

- Bring a valid, government-issued photo ID matching the name on your booking exactly. We accept:
 - International travel passport
 - Driver's license
 - Identification card (national, state, or province ID card) -
 - Alien registration card (green card or permanent resident/visa)
 - Certain types of Aadhaar card. See [Aadhaar ID Policy](#) for OnVUE.
- We cannot accept IDs that are digital, copied, paper-based, or restricted by law, including:
 - U.S. Department of Defense (DoD) Common Access Card (CAC) or certain secure access IDs
 - IDs from countries where OnVUE delivery is restricted: Cuba, Iran, North Korea, Sudan, Syrian Arab Republic (Syria), Russia, Belarus, and certain regions of Ukraine (Donetsk, Luhansk, Sevastopol, Crimea).

* Some test sponsors allow the use of other items or provide other allowances (such as breaks) during OnVUE exams. Click here to learn about your test sponsor's policies and other procedures.

Testing rules

You will be under strict test conditions when testing with OnVUE. Failure to comply can result in your test being revoked without warning and forfeiture of your test fee.

- Cheating or allowing someone else to take your exam for you is forbidden.
- Do not record, share or allow others to see your exam, even if you face issues.
- Do not leave the webcam view unless on an approved break. *
- Remain quiet unless instructed by your exam or proctor.
- Do not access your phone unless you have permission from your proctor.

Your session will be recorded for training, quality and security purposes.

Your proctor may contact you during your exam if you need to follow further instructions and are available should you require assistance from them. However, you are responsible for your device, network, and environment; our proctors cannot pause or add more time to your exam, nor can they troubleshoot technical issues.

~ ON TEST DAY ~ Technology Checks

1. Restart your computer to ensure there are enough resources to run the exam.
2. Use a hardwired connection to your router and disconnect from any VPNs. Where Wi-Fi is your only option, sit as close to your router as possible. Remind others not to download large files or stream video, because it can cause connection issues that prevent you from testing.

3. If you are using a laptop, plug into a power outlet. You will not be permitted to leave the webcam view to plug in your laptop during your exam. Unplug all but the single display you are going to test on. If you are using a laptop with an external display, close your laptop so that only one display is active.

Environment checks

1. Ensure that you can remain alone, quiet, and free from distraction.
2. Cover any windows, doorways or partitions that might allow someone else to see your exam, even from a distance.
3. Tidy your environment by disconnecting or removing all other electronics, clutter, paper materials, and writing utensils that are not explicitly allowed for testing. *

Readiness checks

1. Visit the bathroom before opening the OnVUE application. You are not permitted to leave the webcam view unless on an approved break.
2. Adjust lighting, climate, and seating for comfort. Remotes used to control these are not allowed within your testing environment.
3. Ensure you have any drink, gum, or other approved comfort aids and have removed any coats, wristwatches, sunglasses, headphones, and earbuds.

No personal items may be taken into the testing room. This includes all bags, books not authorized by the sponsor, notes, phones, pagers, watches and wallets.

Reschedule Policy

If you need to reschedule your appointment, be sure to do it as soon as possible before your appointment. If you do not reschedule your appointment before the scheduled appointment time, you will forfeit your exam fee.

Cancellation Policy

If you need to cancel your appointment, be sure to do it as soon as possible before your appointment. If you do not cancel your appointment before the scheduled appointment time, you will forfeit your exam fee.

Additional Information

As part of Pearson VUE's online-proctoring platform, you and your computer will be monitored during your entire test session, including during the check-in process, in real time so that your face, voice, desk, and workspace will be captured and possibly recorded for the purposes of test quality, test security, and the integrity of the testing process. This monitoring may be supported by artificial intelligence ("AI"), which may process and analyze data captured during your testing session to support exam security and integrity. For more information, please refer to Pearson VUE's [Responsible AI Statement](#).

Individuals under 18 years may not schedule Anthropic exams. The minimum age may be higher in some countries/regions.

Pearson VUE will not be held responsible for expenses incurred beyond the cost of the exam, including but not limited to travel expenses and lost wages on the day of the exam.

Pearson VUE's goal is to make your exam experience a pleasant one. We want to thank you for selecting Pearson VUE as your exam service provider, and we look forward to serving you again. Please feel free to contact us with your comments or questions. Our contact information can be found on our website: [pearsonvue.com/contact](https://www.pearsonvue.com/contact).

Sincerely,

Pearson VUE
